

## Rock Duster (Non-permissible)

The Johnson Industries non-permissible rock duster distributes rock dust into the air using a battery powered auger slinger. It is self-powered, so just turn it on, and let it go. Auger speed is adjustable for more or less dust in the air.

Useful in construction, boring, and digging, the Rock Duster from Johnson Industries is useful for numerous industries. Construction, agriculture, mining, and maintenance companies will find this battery powered auger slinger a great asset for their industry.

## Rock Duster - Non-permissible

### Equipment Specifications

- Type: battery powered auger slinger
- Motor is rated 5hp for the 48v unit or 4hp for the 36v unit
- Panic switch and battery monitor

### Standard Dimensions:

- Height: 26" - 30"
- Width: 48"
- Length: 96"

### Available Options:

- Speed control
- Fire extinguisher

### Industries Used Or Can Be Used:

- Mining Industries
- Salt Mining
- Coal Mining
- Molybdenum Mining
- Zinc Mining
- Potash Mining
- Gold Mining
- Rock Mining
