

## Carousel (Sample Collector)

In instances where samples collected need to be sorted by vendor, a dividing storage system is needed. Johnson Industries provides both linear and carousel sample collecting systems. The carousel system is a rotary indexing machine with heavy duty plastic containers. The carousel system can be built to accommodate 6 to 15 vendors. The system can be operated locally or remotely.

Featuring a simple, rugged design, and rapid initial installation, the Carousel Sample Collector from Johnson Industries is a great sample dividing solution used around the world.

## Carousel Sample Collector

## Equipment Specifications

- Push button control
- Driven by 480v 3-phase 1hp motor
- Plc controlled
- Strong plastic containers
- Steel construction

## Standard Dimensions:

- Depends on the number of canisters needed. Contact us with your requirements so we can build to your specifications. Call Today! **(606) 639-2029**

## Available Options:

- Can build for 6 to 12 Canisters. Contact us with your requirements so we can build to your specifications. Call Today! **(606) 639-2029**
- Touch screen display

## Industries Used Or Can Be Used:

- Mining Industries
- Salt Mining
- Coal Mining
- Molybdenum Mining
- Zinc Mining
- Potash Mining
- Gold Mining
- Rock Mining
