

Factory Truck

Our compact, tough burden carriers can be used in any industry. The burden carrier trucks can be modified or redesigned to meet most any customer demand. Johnson Industries produces high quality burden vehicles and factory trucks for safety and efficiency. From industrial duty cars, to factory trucks, Johnson Industries is the authority on mining equipment and burden vehicles.

With features like a 7.2 HP SepEx motor, 7" rear drum brakes, and a programmable smart charger, factory trucks from Johnson Industries are versatile burden vehicles which can be used for many industries. Featuring a panic disconnect, and 3500-4000 lb front and rear axles, factory trucks from Johnson Industries is a great solution for your industry's burden carrier needs.
