

## DC Rail Runner

The Rail Runner is a battery powered rail vehicle used for transporting miners, other personnel, or supplies (not in the operator's compartment.) The Rail Runner is currently built for 42 inch and 48 inch gauge track, but can be built for any reasonable gauge. Dependent on customer need, the Rail Runner can be built to accommodate 2 to 10 people.

With features like steel wheels, 48VDC battery pack, and 3000 lb floating axles, the Rail Runner is a great benefit in a variety of industries. Johnson Industries' Rail Runner is a great supply and personnel carrier and is or can be used around the world in salt mines, coal mines, molybdenum mines, zinc mines, potash mines, gold mines, rock mines.

Featuring a 7.2 HP motor, panic switch, and semi-elliptic springs, the Rail Runner from Johnson Industries is a great solution for your industry's personnel carrier needs.
