

36V Scooter

Our compact, tough scooter can be used in any industry. If you get tired of walking and need a vehicle that will out-last many pairs of shoes, this is it. Although compact, it features impressive pulling and staying power with four wheel stability and proven components chosen to give years of durable service. The scooters were designed and built for maneuverability and dependability while moving about on the job. They can also be redesigned to meet most, if not all, customer demands.

When traversing around large facilities such as factories, airports, hospitals, colleges, and warehouses, a tough, maneuverable 36V scooter from Johnson Industries is a great solution for your personnel. Dependable and compact for tight spaces, this 36V scooter will be a great asset for your staff and facility.
